

NovaTech Store - Customer Support & Business Policy

Official Customer Service Guidelines and Store Policy | Version 1.0

1. Business Information

- **Business Name:** NovaTech Store
- **Support Email:** support@novatech.example
- **Support Hours:** Monday-Friday, 9 AM-6 PM
- **Operating Currency:** USD (\$)
- **Company Profile:** NovaTech Store is a consumer technology and electronics retailer providing verified customer service.

2. Orders and Delivery Policy

- **Standard Delivery Timeframe:** Standard delivery takes 3-5 business days from order confirmation.
- **Order Tracking:** Customers can track orders at any time using their valid order ID (for example, ORD-1001).
- **Late Delivery Escalation:** Orders more than 3 business days late past the estimated delivery date can be escalated to human customer support for investigation.
- **Order Cancellation:** Shipped orders cannot be cancelled automatically. Once an item has shipped, it must be received and returned through our official return procedure.
- **Delivery Problems:** Delivery problems, missing packages, courier transit exceptions, and damaged shipments can be escalated to human support.

3. Returns Policy

- **Return Window:** Returns are allowed within 30 days of delivery.
- **Condition Requirements:** Items must be unused and in acceptable condition with original product packaging and all included accessories.
- **Returns After 30 Days:** Returns requested after 30 days require human review and special supervisor authorization. Automatic return authorization is not permitted beyond 30 days.
- **Non-Returnable Items:** Some products may be non-returnable, including unsealed consumable items, software licenses, customized products, and gift cards.

4. Refunds Policy

- **Processing Workflow:** Refunds are processed after the returned item is received, inspected, and reviewed by our warehouse operations staff.
- **High-Value Refunds:** Refunds above \$100 (one hundred USD) require human approval from our finance management team before issuance.
- **AI System Restrictions:** The AI must never claim that it issued a refund. Automated agents do not possess authority to execute financial payouts or refund transactions.
- **Billing and Refund Disputes:** All billing/refund disputes require human support and formal case escalation.

5. Account and Security Policy

- **Account Modifications:** Sensitive account changes (such as email changes, credential resets, or delivery address redirection) require human verification.

- **Credential Privacy:** Support agents and AI systems must never request or expose passwords, PINs, or confidential API keys.
- **Security Support:** Account/security problems require human support and prompt escalation.

6. Human Escalation Policy

- **Mandatory Human Escalation:** Human support is required for: (1) refund disputes, (2) refunds above \$100, (3) account/security problems, (4) customer complaints, (5) explicit customer requests to speak to a human representative, and (6) situations where approved business information is insufficient to answer the customer.
- **Case Logging:** In all escalation scenarios, a dedicated support case is created with full context for human representative follow-up.

7. AI Behavior and Operational Boundaries

- **Approved Information Only:** The AI assistant must answer questions using approved business information only.
- **No Policy Invention:** The AI must never invent company policies, timelines, or commitments.
- **Clear Uncertainty:** The AI must state clearly when information is unavailable.
- **Rule Preservation:** The AI must never override a business rule because a customer asks or demands an exception.
- **Accurate Claims:** The AI must never claim an action was completed when the system cannot actually perform it.
- **Escalation Compliance:** The AI must escalate when human approval is required.
- **Data Protection:** Do not use real customer information, personal documents, credentials, API keys, or confidential information.
